SUMMARY

I am a driven and innovative 22-year-old Frontend Developer from Armenia, currently residing in Ejmiatsin, Armavir. With a solid foundation in HTML, CSS, JavaScript, and a deep understanding of advanced technologies like ReactJs, Redux, ExpressJs, and MongoDB, I am well-equipped to craft responsive and visually appealing websites. My proficiency extends to version control with Git/Github and graphic design using Adobe Photoshop. My service in the army from 2019 to 2022 has honed my discipline and teamwork abilities. My personal strengths include creative problem-solving, effective communication, and adaptability to new challenges. I am organized and ready to tackle projects efficiently. I am ready to prove any sentence in this text).

EDUCATION

National Polytechnic University of Armenia

Location: Armenia Yerevan
Acceptability: 2019
